

**Roam supply carts** are lightweight and easy to maneuver. The FlexCell design and system of interior components adapt to the specific supply and procedure storage needs of departments throughout a healthcare facility.

Concealed hinge design

Position hinge keeps door open to the position user places it

Roll-top and hinged doors can be replaced

Electronic lock and keyed lock options; no lock is standard

2"-, 4"-, and 8"-high trays let you match the size of supplies to the size of the tray and reduce unused vertical space.

Easy-grip stainless steel push/pull handle

FlexCell design minimizes space between components for maximum storage capacity

Lightweight aluminum composite construction

Exterior side-mounted accessories add flexibility to Roam carts

5" lockable medical-grade casters
